

OVERVIEW OF TEMPORARY FOOD FACILITY (FOOD BOOTH) REQUIREMENTS

Anytime food or drinks is sold or given away to the public at a community event, a health permit is required. The type of health permit and the requirements for the operation of a food booth will depend on the type of food that is being offered.

*A community event is an event that is conducted for not more than 25 consecutive or nonconsecutive days in a 90-day period and that is of civic, political, public, or educational nature, including state and county fairs, city festivals, circuses and other public gathering events approved by Orange County Environmental Health (OCEH). A grand opening, a store give-away event, or any other event that is designed to increase, celebrate, or promote a business is **not** a community event.*

This handout summarizes the California Retail Food Code requirements and is intended to assist you in providing safe and wholesome food to the public and preventing foodborne illness.

All food vendors **MUST** comply with the following requirements during preparation and all hours of operation. All TFFs are subject to inspection by OCEH. Failure to comply with these operating requirements may result in a closure until violations are corrected.
